9:20	KEYNOTE SPEECH & LAUNCHING CEREMONY YBhg. Dato' Sri Haji Mad Zaidi Mohd Karli, <i>Ketua Setiausaha (PETRA)</i>
9:40	PHOTO SESSION
10:00	GALLERY WALK SESSION WITH SPECIAL GUESTS
	NETWORKING TEA BREAK <i>*For delegates</i>
	FORUM 1 : AOM EXCELLENCE
10:30	Dr. Zainul Asri bin Mamat, <i>Head (Asset Management)</i> Ir. Ts. Ahmad Afzainizam bin Mokhtar, <i>Head (Brown Asset Management)</i> Udhayakumar a/l Poovalingam, <i>Head (Green Asset Management)</i> Muhammad Zaki bin Kamardin, <i>Head (Contract & Commercial Management)</i> Moderator: Mohd Fadhil bin Mohamed, <i>Chief Engineer (Steam Turbine)</i>
	CORE SESSIONS
11:35	RECOVERING CORE PERFORMANCE THROUGH OPERATIONAL DISCIPLINE; <i>(Hybrid)</i> Journey Towards Positive Technical Fuel Variance, <i>Kumarasen a/l Murugiah, Principal Engineer (Asset Performance) - AHM</i> JEP Unit 10 Heat Rate Analysis : Degradation, Corrective Actions, and Post-Overhaul Results, <i>Adam Adlee Bin Ahmadnur, Engineer (Performance & Commercial) - SJTM</i> Negative Fuel Variance to Financial Recovery: A Data-Driven Heat Rate Recovery Strategy Enabled by Hot Gas Path Inspections , <i>Mohammad Syafiq Bin Ibrahim, Senior Engineer (Operation, Planning & Performance) - SIPP</i> Driving CP Loss Reduction Through Focused Execution, <i>Abuzar bin Narin, Principal Engineer (Asset Health - Turbine) - AHM</i>
12:15	NETWORKING LUNCH
	ASSET RELIABILITY AS THE FOUNDATION OF SUSTAINABLE VALUE
14:00	Transforming Aging Boilers into Reliable Assets: Implementation of a Boiler Integrity Program at Kapar Energy Ventures <i>Mohd Khairul Hairi Bin Mamat, Senior Engineer (Boiler PP HP/ HT Systems) - KEV</i> Enabling Regulatory Flexibility and Cost Efficiency through RBI-Driven PSTT for Pressure Vessel Integrity <i>Ahmad Fauzan Bin Ahmad Nazrin, Engineer (Regulatory and Plant Life Assessment) – TNBJ</i>
	DIGITAL & SMART OPTIMIZATION FOR SUSTAINED PERFORMANCE IMPROVEMENT
14:35	Exploration of Machine Learning Powered Intelligent Soot blowing for Enhanced Boiler Efficiency and Reliability <i>Mohd Faiz bin Abd Razak, Performance Analyst (CCGT) - AOM</i> Optimization of auxiliary power consumption in power plants using variable frequency drives to increase PAT. <i>Raajabairavi a/p Sivaprakas, Engineer (MS CNI) - REMACO</i>
15:10	DRIVING EFFICIENCY THROUGH OPERATIONAL AND COMMERCIAL DISCIPLINE
	Integrated Demurrage Management in TNB Genco, <i>Muhammad Faiz bin Hairudin, Principal Engineer (Fuel Management) - AOM</i> Sustainable Asset Returns / PAT Through Application of Life CycleCost Analysis Methodology <i>Vikkineswaran a/l Supramaniyan, Principal Engineer (Asset Life Cycle Management) - AOM</i>
15:30	TEA BREAK & NETWORKING
	BROWN ASSETS SUPPORTING CLEANER OUTCOMES
16:00	Coal–Gas Co-Firing Initiatives as a Transitional Decarbonization Strategy for Thermal Fired Power Plants <i>Mohd Atiqullah bin Che Ghazali, Engineer (Performance) - KEV</i> Thermact Trial Burn at KEV Unit 4 <i>Ir. Chooi Wai Mun, Technical Expert (Combustion) - TED</i>
	EXECUTION EXCELLENCE & INTERNAL CAPABILITY STRENGTHENING
16:05	Building Strategic Self-Reliance: TNB REMACO’s Journey in Spare Parts Fabrication through Reverse Engineering <i>Azril Dahari bin Johari, Specialist (Parts Development and Fabrication) - REMACO</i> Enhancing Commissioning Efficiency Through Formalization of Mill Operation in Thermal Power Plants <i>Ir. Ts. Kishelsharen A/L Supaya, Manager (Shift) – KEV</i>
17:05	END OF DAY #1
